

Visitor Arrivals Revision Note

During the period December 2024 to March 2025, technical issues affecting the primary source data from the Barbados Immigration Department necessitated the use of an alternative data source in an effort to provide the most accurate possible estimates of arrival numbers while the IT issues were being resolved.

Subsequent monitoring and evaluation indicated that limitations in the alternative source - particularly the absence of sufficiently granular information on traveller intent – such as length of stay and purpose of visit and variations within specific traveller subcomponents - resulted in an overestimation of long-stay Visitor Arrivals during the period under review.

Consequently, the Barbados Statistical Service has revised its Visitor Arrival numbers for the aforementioned period.

Table:1 Stay- Over Visitor Arrival Statistics
December 2024 – March 2025

Period	Originally Published Estimates	Revised Estimates	Percentage Change
December 2024	87,112	79,303	(8.96)
January 2025	77,967	71,268	(8.59)
February 2025	79,406	67,469	(15.03)
March 2025	76,938	75,310	(2.12)
TOTAL	321,423	293,350	(8.73)
